Updated Crisis and Hotline information

09/23/2014

We understand that at times in your life there will be circumstances to arise that will cause a crisis situation to occur. If you are dealing with depression, drug abuse, known child abuse, etc. please view this list of crisis numbers that could possibly be of help.

Thanks and have a blessed day....

In any crisis, if you are in immediate danger, call 911.

If you cannot call 911, proceed to the **nearest Hospital Emergency Room** to ask for assistance. Regardless of the type of crisis, the Emergency staff will contact whichever branch of crisis intervention service is appropriate to get you the help you need.

If you cannot locate a Hospital Emergency Room, proceed to the **nearest Fire Station** or **nearest Police Station**, where the staff will provide help and connect you with the appropriate crisis intervention service you need.

Cancer

Cancer Information Service: 800-422-6237

Do you have questions about cancer or quitting smoking? The National Cancer Institute (NCI) has information specialists available by phone M-F, from 8 a.m. to 8 p.m. EST. NCI also offers information via its "LiveHelp" online chat service M-F until 11 p.m. EST:

https://livehelp.cancer.gov/app/chat/chat_launch/

Cancer-Related Crisis via the National Suicide Prevention Hotline: 800-273-8255

People undergoing cancer treatment often need extra help and support to get through the stress of dealing with the illness and any associated pain and depression. If you find yourself feeling that your life is no longer worth living, call the free 24-hour suicide prevention hotline for immediate help. They can also refer you to a cancer support community for ongoing help.

Bloch Cancer Hotline: 800-433-0464

Are you newly diagnosed with cancer? The R.A. Bloch foundation's helpline operators will help get your questions answered and match you up with a survivor of your type of cancer to offer support. The foundation also offers free books, guidance and information.

Youth Development International Crisis Hotline: 800-HIT-HOME (448-4663)

This youth crisis hotline provides crisis intervention counseling, information and referral on youth issues, child abuse, pregnancy, runaways, suicide, shelters, churches, transportation and more.

Coping in a Crisis

Help is always available to you if you need it, and you should be reassured to know that every city and county in the U.S. has crisis intervention hotlines and assistance in place. Hotlines and crisis centers or facilities are staffed by people who want to be of service to others in need, so if you ask for assistance, you will receive it. The most important first step in a crisis is to ask for help.

Coping after a Crisis

Have you just been through a crisis situation? If so, you may be experiencing some post-traumatic stress. All of us will experience some level of stress or a period of disorientation and unrest after a crisis, so it is important to recognize this and allow some time to decompress.

If after a crisis you feel a bit shaky, or even angry, are having trouble focusing or having sleep disturbance, please be reassured that these are considered normal responses to an abnormal situation. Try not to take it out on anyone else, and go easy on others who have been through the same crisis. Your feelings may linger for a while, but you may find that talking it over with family and friends can help you process what has happened.

There is no need to feel that you have to rush the recovery process and quickly “get back to normal.” It is generally recommended that you go easy on yourself, and your loved ones, and take a little extra time to get centered again. If you feel that you need some extra help getting through the post-crisis stage, you are encouraged to seek counseling.

The nationwide crisis line and hotline directory can be referenced for additional resources state-by-state: <http://www.aaets.org/crisishotline.htm>
